ABOUT US

Allvig Technology GmbH located in Hilden (Germany) is producer of contactless visual quality control systems which are designed for industrial automated visual assurance and measurements in production lines.
Allvig Technology GmbH is a young company founded by a group of engineers with more than twenty years of individual experience in industrial image processing.

Allvig Systems are developed and produced in Germany.
Highly universal and extremely adaptable to specific customer needs, Allvig Systems can be used for a wide array of products.
Our vision is to expand access to high quality control for all manufacturers, big and small, by creating reliable and affordable quality control systems.
We help you with all of your automatic quality control needs in production processes.
We are open and ready for new tasks and challenges, as camera-sensor based technology is our passion.
