

7th of March 2023

Assolombarda via Pantano 9, Milan

Assolombarda and the Lombardy life science Cluster have the pleasure of inviting you to the event to foster knowledge exchange and strengthen the relations between Lithuania and Lombardy within the life science sector, which involves key experts, R&D clusters, industry stakeholders, as well as leading medtech and pharmaceutical companies.

The event will provide a unique opportunity to:

- gain insights on the Lithuanian and Lombardy life science ecosystems, current opportunities for research, business development, manufacturing, and collaborations;
- connect Lithuanian companies with key Lombardy companies, research centres, hospital and cluster organizations.
