PAESE E TIPOLOGIA DI PROFILO Spain Technology Offer	A Spanish private network of hospitals with a large multidisciplinary team and the most advanced technology, seeks a consortium to participate in the HORIZON-HLTH-2021-STAYHLTH-01 call or other relevant European programmes . Their strengths are diagnosis, ophthalmology, oncology and surgery. The group offers its know-how in all health fields, in addition to the different technologies implemented for its improvement and enhancement.
LINK <u>CLICCA QUI</u>	The company seeks to work with universities, large companies, SMEs in the health sector and artificial intelligence , preferably with experience in coordinating EU projects. Type of Partnerships Considered: Research cooperation agreement.
PAESE E TIPOLOGIA DI PROFILO Germany Technology Offer	A German university offers nanoparticles for cell-type specific therapeutic delivery of small interfering ribonucleic acids (siRNA) and other effector drugs . This is a more efficient option in oncology treatment that can target different cell types. The development of an efficient siRNA nano-carrier is a major goal to make use of RNA as a molecular therapeutic modality. Companies with a focus on oncology are sought .
LINK <u>CLICCA QUI</u>	Type of Partnerships Considered: License agreement.
PAESE E TIPOLOGIA DI PROFILO Technology Offer Poland	A team of Polish scientists has developed a microencapsulation method that may be implemented in pharmaceuticals as well as in the food industry. Microcapsules immobilise active substances, can mask their flavour and odour, and shield them from external factors (their environment). In the processes of microcapsules production and immobilisation only natural substances are used , so that the technology can be safely implemented in the food and the pharmaceutical industries as well as in the medicine and other branches. The utilisation of various physicochemical methods enables the production of microcapsules with specific properties desired by a partner .
LINK <u>CLICCA QUI</u>	Type of Partnerships Considered: Commercial agreement with technical assistance; License agreement.
