

aerocom

il Vs. partner per la posta pneumatica

aerocom GCT Srl

ASSOLOMBARDA
Filiera Largo Consumo

Who we are

With a German HQ, aerocom in Italy was founded in 1983 and immediately conquered part of the market in the field of pneumatic conveying systems.

More than 1000 aerocom systems are currently operating in our country, in many different realities (offices, logistic warehouses, cinemas, refineries, steelworks, hospitals, supermarkets, petrol stations, banks, motorway toll booths, public administration offices, hotels, pharmacies, etc.).

Our proven experience has made aerocom the reference pneumatic tube manufacturer worldwide, well recognized in every sector.

What we do

We have the highest range of pneumatic cash removal systems: from the simplest one-way 'point-to-point' system to more complex two-way systems, controlled by PLC or computer.

The most common applications are:

- petrol stations
- supermarkets
- Banks
- Toll and service areas
