

EXPERTS IN PREVENTION, TRAINING AND SAFETY.

Through a network specialized in health services, we develop effective solutions and tools to safeguard the health and guarantee the safety of employees both in the workplace and during missions abroad, thus improving the well-being and productivity of each company.

BUSINESS TRAVEL MEDICINE SERVICES

We support companies with traveling staff in the processes envisaged by the duty of care with services entirely dedicated to the health and safety of employees who travel for work. We offer business travellers adequate preparation to prevent any potential travel-related risk, by applying the best practices set out in the ISO 31030 guidelines on Travel Risk Management. Moreover, we offer Occupational Health services and support companies in all the activities necessary to comply with Legislative Decree 81/08.

Ambimed is a one-stop-partner with a transversal and complete range of services for all needs related to prevention, health and safety at work, anytime, anywhere in the world.
