BARETTI MEFE S.R.L

Equipment for Oil & Chemical Ind.

Who we are

Baretti was founded in 1890, since then, Baretti has seen several transformations and gone through evolutions. In the 80s, we started to design and construct special high-precision mechanical manufacturing machines. Even, we manufactured components for nuclear plants, as per that period, most advanced certified quality management system, we added the construction and installation of Marine Loading Arms and special facilities for the berthing of oil super tankers.
