

ASSOLOMBARDA
Filiera Automotive

WHO WE ARE

The **CIMA Group** is a globally operating company in the automotive and household appliances sector, which produces components for chassis and powertrain, suspension systems for washing machines, as well as being a pioneer in the technology of metal fasteners and titanium suspension springs for high performance cars. The group, still 100% owned by the Bellazzi family, was founded in 1946 in Brianza, Busnago (MB), began to operate as a spring mill and then expanded its product portfolio and its global presence. To date, the group has more than 600 collaborators spread across Europe, China, India and North America, it is the world leader in suspension systems for washing machines and it is specialized in the molding and winding of metal wires and strips.
