

ClimatePartner

ClimatePartner Italia Srl

ClimatePartner is your partner for climate action

ASSOLOMBARDA
Filiera Automotive

We offer companies climate action solutions: from carbon footprints and climate action strategies all the way to climate neutral products with the support of international carbon offset projects. Our goal is to embed sustainable climate action into corporate activity.

Effectiveness, transparency and credibility are key. We will work with you to design solutions that are suitable for you as a company.

Corporate Carbon Footprint (CCF)

A corporate carbon footprint allows you to understand the carbon emissions related to your business activities.

Product Carbon Footprint (PCF)

Lifecycle analysis focused on greenhouse gas emissions of your product(s) or service(s).

Climate action strategy

We advise you on creating a meaningful climate action strategy for your company.

Carbon offsetting

Enabling you to achieve Climate Neutrality.

Communication

We can help you communicate your commitment to climate action.
