Who we are

CPM SpA is one of the main Italian companies specialized in bearing manufacturing.

In the modern manufacturing plant in Nova Milanese, over 170 workers design and manufacture more than 3 million special bearings every year, supplied to the national and international markets.

Your needs Our actions !

Produce locally and think globally is part of CPM's DNA and represents that added value which led the company, established in 1967, to a constant and significant growth through the years.
