

Who we are

Donelli Alexo, part of the Donelli Group (established in 1911), is dedicated to meeting the most demanding **anticorrosion, fireproofing** and **insulation** needs of energy, petrochemical and chemical facilities as well as for the food industry.

Coating applications are carried out in **two state-of-the-art painting** facilities located in [Cuggiono \(MI\)](#) and [Voghera \(PV\)](#) as well as **onsite in Europe**.

All applications are carried out in strict compliance with clients' specifications by a **UNI EN ISO 9001 and ISO 14001** certified company, with experienced and trained personnel, certified NACE/FROSIO inspectors and the most reliable inspection tools available in the industry.

This ensures **schedule fulfillment** and that projects meet **environmental, qualitative** and **safety standards**.
