

Diplomatic Motion Solutions

Think, do, keep moving forward

Who we are

Diplomatic Motion Solutions is an international corporation based in Parabiago, Milan. Established player in the motion control market, the Group has been constantly growing for the last 6 years, increasing from one single facility to the present 15 production sites, nine of which are based in Europe, two in the U.S.A., three in Asia and a further one in Australia.

Product description

Proportional valves

Diplomatic Motion Solutions offers a complete range of proportional valves: pressure control, flow control, directional, explosion-proof, high response.

Hydraulic Systems

All our hydraulic systems can be certified, according to the specific needs, to comply several international standards (of quality/of process/etc.).
