

NELDEN INDUSTRY SRL,
Founded in 2002, has its
headquarter and production
facilities in province of Pavia
An area known for the
production of sparkling
wines and still wines.
It's a small-medium size
company carrying out the
construction of filling
monoblocks to fill glass,
PET bottles and cans with
liquid food products, but it
also deals with the design,
the consultancy and the
creation of **Complete
bottling lines** as well as the
sale of machines and
products for the bottling
industry.

Our Product

The machines series we are
manufacturing are:

- **URANO** line for isobaric
filling of carbonated products
(beer, CSD, water with gas,
sparkling wines, etc);
- **URANO CANS** for
isobaric filling of carbonated
products into aluminum
cans;
- **GIOVE** series for non-
carbonated products (flat
water, still wines, spirits, etc).
- **GIOVE NET-WEIGHT** or
GIOVE FLOWMETRIC for
sensitive products like juices,
milk and dairy as well as
edible oil, motor oils and
household chemical
products.
