

**Openstage**

# OPEN STAGE S.R.L.

Entertainment for Smart Cities

ASSOLOMBARDA  
Filiera Life Sciences

## Who we are

Openstage is a revolution in urban entertainment. A totem that can be booked through an app and allows artists to create a real live event by providing all the audio equipment (mixer, sound system, power outlets, IoT sensors) free of charge in public and private spaces. Openstage is built upon core values, aiming to democratise access to culture and foster artistic talents through technological innovation.

## Product description

**Openstage totems** are innovative urban furnishing technologies for modern artistic and cultural entertainment, equipped with an audio system including mixers, speakers, power outlets, and IoT sensors. They are customizable in shape and design.

The **Openstage app** and **web app** enable users to create their profiles and book available slots on both Openstage totems and virtual locations (basic public spaces provided but not equipped) for street art performances.
