

# SEKISUI ALVEO srl

## innovation in foam

### Who we are:

Sekisui Alveo specialises in the development, production and distribution of high-quality polyolefin foams. The focus on the needs of our customers and on the quality of our products and services make Sekisui Alveo a leading European solution provider in the field of foam technology. With comprehensive capabilities in product development and testing, Sekisui Alveo offers customer-specific solutions in close collaboration with converting partners. Our company is known as an innovation driver in the field of foam technology.
