Product / Offer description

We are a lean and dynamic company developing our business in a sustainable way.

We are committed to guaranteeing the highest standards in terms of social responsibility, in particular, on "environmental protection" by adopting a sustainable policy that aims to reduce emissions and minimize waste production.

All our business processes comply with the Quality Management System Certification of the ISO 9001:2015 standard and we are actively committed to achieving ever higher levels of occupational health and safety for our workers and contractors.

We offer high quality products such as gasoline, diesel and special diesel oils with additives, LPG, methane and highly reliable and safe engine lubricating oils.

Our commercial objective is to guarantee a proposal of services, loyalty programs and prices, which is characterized as one of the most competitive on the market.
