

TimeFlow S.r.l.

(Claim)

(Who we are)

Timeflow is an innovative startup that offers Cloud solutions to companies in technical and managerial consulting. The company was founded in May 2020 to improve control and sales processes in the consulting sector.

(Product description)

The B2B Marketplace, platform distributed according to SaaS model (Software-as-a-Service), represents the meeting point between the need of customers looking for qualified personnel (System Integrator or end customers) and the availability of human resources from the suppliers (SMEs in the field of consultancy).
