

Up2You S.r.l. SB

La rivoluzione carbon neutral
comincia da te

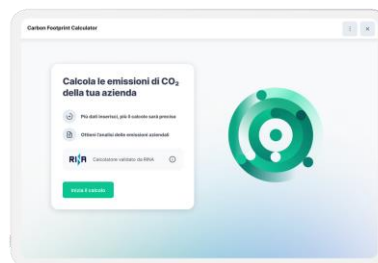

ASSOLOMBARDA
Filiera Energy Sustainable Global Chain

We are a B Corp certified, Greentech start-up that allows companies to reduce their environmental impact. We offset and neutralize CO2 emissions, and then certify the commitment on blockchain. We encourage sustainable actions and study low-impact business models.

At Up2You, we create digital tools to make each company greener and we offer services to measure, reduce, and offset emissions, but also to engage a company's employees.

Certificazione

Neutral Company makes carbon neutrality easier and more accessible for any type of business and company. Calculate, reduce, and neutralize your company's carbon footprint, thanks to an easy-to-use platform and 24/7 monitoring.

PlaNet is a fully customizable, corporate green engagement platform. It lets you challenge your work team with quizzes and green missions, on a company path towards environmental sustainability. The results? Quality team building and a concrete environmental impact.
