

# YOTTAWORLD

Technology needs energy.

## Who is Yottaworld?

We are a studio of **Network and Security** experts operating in Italy since 2017 to support brands implement their technology strategies by being **connected, in security.**

We act as partners in our clients' transformation, offering end-to-end services with **innovation, agility, and energy.**

As a leading network and security **consultancy** in Italy, we provide top-notch service, helping teams transfer and link data securely amidst modern business innovation and **disruption.**

## Assessment

We holistically **analyze network infrastructure** mastering complexity thanks to our end-to-end competencies.

## Design

We **engineer the best solutions** harmonizing current platforms by suggesting the most advanced architecture to reach target operational results.

## Delivery

We reinvent **installation and configuration** of target solutions by applying agility, flexibility and accuracy in our approach.

## Services

We optimize **monitoring and incident management** by leveraging automation, AI and prediction to our operations.
