Product description

Integrated solutions for hotel industry
A complete offer of software solutions dedicated to hotels, hotel groups and chains of any size. Cutting-edge, top-of-the-market **complete and modular solutions represent the best answer to the digitization needs of all areas of the hospitality industry**: front office and room division, booking, sales, marketing, food & beverage, administration and management control, alongside with the management of gyms, swimming pools, spas and wellness centres.

Access Control Systems
A complete and integrated system of solutions to anyone managing sports events, show and entertainment events: from **access control** to **e-ticketing**, from POS and **table service management to energy management.** Relying on Zucchetti means choosing the global leader in the access control systems, as shown by the over 100 facilities in Italy and abroad, whose safety is already guaranteed by Zucchetti's solutions.
