Engineering & Manufacturing

PageGroup specialises in the permanent, temporary and interim recruitment of engineering and manufacturing professionals. We have a proven track record of completing assignments with organisations ranging from SMEs to blue-chip multinationals, through our consultative approach. We've earned the trust of businesses, nationally, within the industrial and FMCG sectors through building long-term, mutually beneficial relationships.

Many of our consultants hail from engineering and manufacturing backgrounds so they know what it's like to be a candidate or employer in your sector. Our teams are broken down by sector, salary level and location so you'll always deal with someone who knows the market inside out.

Automotive sector is one of our main fields of expertise, with a wide range of success cases and acting as pillars of recruitment missions for main OEMs and TIER1 companies.
