

Who we are

V.S.V. has a 40 years experience in **designing** and **manufacturing progressive and transfer tools**, as well as in supplying turnkey complete lines. In addition, V.S.V. boasts a **press dept.** with machines up to 420 tons. where we can realize small-medium sets of goods, directly using our moulds.

V.S.V. pays continuous attention to the technological evolution: 3D projects, CAM programming, new integrated lines according to the paradigm of "Industry 4,0".
