

ABB S.p.A.

ASSOLOMBARDA

Filiera Energy Sustainable Global Chain

## Chi siamo

ABB è un leader tecnologico nell'elettrificazione e nell'automazione, che contribuisce a costruire un futuro più sostenibile ed efficiente nella gestione delle risorse.

Con una storia di eccellenza iniziata oltre 130 anni fa, le 105.000 persone di ABB (circa 4.600 in Italia) sono impegnate a promuovere innovazioni che accelerano la trasformazione industriale.

Giuseppe Dierna

## Cosa offriamo

Organizzata in 4 diverse Business Area, l'azienda offre un ampio portafoglio di prodotti e servizi, principalmente correlati ai seguenti settori:

- Elettificazione  
*Electrification*
- Motori, generatori, convertitori di frequenza  
*Motion*
- Soluzioni di automazione e controllo per industrie di processo, ibride e marittime  
*Power Automation*
- Soluzioni nei settori della robotica e dell'automazione delle macchine di fabbrica  
*Robotics & Discrete Automation*

[www.abb.com](http://www.abb.com)

## Who we are

We are specialized in supply of turn key labs and workshop in different fields: chemical, petro-chemical, natural gas and water treatment with particular attention to EPC companies

ATS FAAR Industries can assure the most qualified and technical support during the whole life cycle of the project, from consultancy through implementation & shipment to start up and commissioning phase

## Product description

Thanks to our international network of highly qualified manufacturers we can provide everything a modern laboratory needs: furnitures, electrical, water and pure gas systems, instruments, glassware, chemicals & reagents, safety tools.

ATS FAAR Industries is specialized in worldwide shipments, carrying out installations and also provide operator training as per customer requests

Il gruppo Brianza Plastica è formato da tre società che contribuiscono a studiare, realizzare e fornire materiali e prodotti di altissima qualità, che rendono il gruppo Brianza Plastica uno tra i più qualificati nel settore dei laminati in vetroresina e dell'isolamento industriale e civile.

Nella gamma di prodotti realizzati da brianza plastica troviamo i pannelli isotec in poliuretano espanso utilizzati nell'isolamento termico civile.

I pannelli in polistirene espanso sempre per l'isolamento termico civile.

I laminati in vetroresina della gamma ELYPLAN, ELYPLAST e ELYCOLD utilizzati per coperture civili/industriali e in ambito automotive.

L'ultimo prodotto entrato nella gamma è ELYSOL lastre compatte il policarbonato utilizzate per coperture civili/industriali.

## Fives ITAS S.p.A.

In the business for over 40 years, company previously known as ITAS S.p.A. is part of Fives Group since 2014.

Fives ITAS belongs to **Fives Energy Business Line Combustion Division** with three main cores/units: **Heating Systems, Oil & Gas and Ecology.**

Fives ITAS is a world leader in design, fabrication, supply and aftermarket services of **combustion equipment and packages.**

Fives ITAS has a dedicated **R&D Division** for CFD analysis and feasibility studies, **constantly working at innovative products.**

Heating Systems unit serves the industry sectors of paper, printing and converting, coating, gypsum, ceramics, textile, food, automotive, combustion systems.

Oil & Gas and Ecology units serve refineries, chemical, petrochemical and pharmaceutical plants, gas fields, LNGs plants, steel plants, fertilizer plants, waste treatment plants.

## Three Business Units: Heating, O&G, Ecology

### HEATING SYSTEMS

- Gas controlled line burners
- Ratio controlled line burners
- Low oxygen process burners
- Indirect hot air generators

### OIL & GAS

- Elevated flares
- Ground flares
- Demountable flares
- Air/steam assistance
- Sonic flares
- Acid gas flares
- Burn pits
- Incinerators
- Process burners
- Fired heater burners

### ECOLOGY

- Recuperative thermal oxidizers
- Catalytic thermal oxidizers
- Regenerative thermal oxidizers RIGETHERM®
- VOC complex treatment plants
- Lumpsum turnkey EPC projects

# OVERLAND s.r.l.

## Surface treatments

ASSOLOMBARDA

Filiera Energy Sustainable Global Chain

## Overland

Overland Srl is a family-owned anodizing aluminium company located near Milano, Italy, and we have been in business since 1946. We are one of the few companies in Europe able to operate with continuous anodizing process, that ensures the absence of hanging/racking marks and the achieving of an homogenous surface, not easy to obtain with the typical batch anodizing process.

## (Contacts)

Tel.: 029067121

[info@overland-ocm.it](mailto:info@overland-ocm.it)

## Anodized aluminium

Overland owns two automated continuous anodizing lines. The aluminium can be delivered in coils or cut into sheets and strips, and it's available in a variety of dimensions and anodic film layers, depending on the customer's needs.

## Siemens Energy

ASSOLOMBARDA

Filiera Energy Sustainable Global Chain

Siemens Energy is one of the world's leading energy technology companies. The company works with its customers and partners on energy systems for the future, thus supporting the transition to a more sustainable world. With its portfolio of products, solutions and services, Siemens Energy covers almost the entire energy value chain – from power generation and transmission to storage. Energy employs 91,000 people worldwide in more than 90 countries and generated revenue of around €29 billion in fiscal year 2019.

The portfolio includes conventional and renewable energy technology, such as gas and steam turbines, hybrid power plants operated with hydrogen, and power generators and transformers. More than 50 percent of the portfolio has already been decarbonized. A majority stake in the listed company Siemens Gamesa Renewable Energy (SGRE) makes Siemens Energy a global market leader for renewable energies. An estimated one-sixth of the electricity generated worldwide is based on technologies from Siemens Energy.
