### *Product description*

#### **Cooling Towers**

- Spare parts supply, delivery and installation
- Plant assessments and plant check
- Complete replacement of heat exchanger bundles and fills
- Turn-key revamping, refurbishment, increase in efficiency and optimization of cooling towers of all kinds

#### **Air-Cooled Condensers**

- Heat exchanger bundle replacement
- Air cooled condenser cell extension
- Modification and replacement of fan drive units
- Solutions for mitigation of wind and noise
- Modification of control logic
- Supply of semi-automatic cleaning systems
- Supply, delivery and installation of all spare parts and components
