COMPANIES INCOMES TAX (CIT)

The principal law is the Companies Income Tax Act (CITA) as amended by the Finance Acts (FAs) 2019, 2020, 2021 and 2023. CITA imposes income tax on profits accruing in, derived from, brought into or received in Nigeria. It is payable by companies that are registered in Nigeria and non-resident entities carrying on business or that have a Significant Economic Presence (SEP) in Nigeria.

Item	Comment / Description
Rate(s) [S 40(1)]	<p>Exempted - profits of Small companies (companies with annual gross turnovers of N25m or less).</p> <p>20% - Medium-sized companies (companies with gross annual turnovers greater than N25m but less than N100 million).</p> <p>30% - Large companies (Companies with annual gross turnovers higher than N100m).</p>
Taxable Income [S 9, 13]	<p>A Nigerian company (company registered in Nigeria) is liable to tax on its worldwide income being its profits accruing in, derived from, brought into, or received in Nigeria.</p> <p>Non-resident companies (NRCs) have historically been liable to tax on income derived from Nigeria, that is, income attributable to their Nigerian operations (through a fixed base, agency or single contract with offshore components and local installation).</p> <ul style="list-style-type: none"> <u>Digital, online or e-commerce activities</u> ("Digital SEP"): NRCs that earn annual revenues of N25m and above from remotely performing a range of digital activities to customers in Nigeria. Such companies will be required to file annual tax returns in Nigeria. <u>Technical, Professional, Management and Consultancy services</u> ("TPMC SEP"): NRCs that remotely provide the above-mentioned services to customers in Nigeria. Withholding Tax (WHT) at 10% deducted by the customers is final tax for the foreign companies.
Excess Dividends Tax (EDT) [S 19]	<p>Where a company pays dividend from profit on which tax is not payable because: -</p> <ul style="list-style-type: none"> It has no tax payable; or Its taxable profit is less than the dividend paid. <p>The company would be taxed on such dividends as if the dividend is the total taxable profit of the company for the relevant year of assessment.</p> <p>EDT is not applicable on;</p> <ul style="list-style-type: none"> Dividends paid from retained earnings, provided that the profits have been subjected to tax under CITA or other tax laws, Dividends paid out of tax-exempt profits Dividends paid from franked investment income and Dividends paid by a Real Estate Investment Company to its shareholders
Basis of assessment [S.29]	<p>The basis of assessment for both resident and NRCs is the preceding year basis. This means tax is charged on profits for the accounting year ending in the preceding year of assessment.</p> <p>For example, if a company makes its accounts to 31 December each year, in the 2021 tax year, it will be assessed to tax on the profits computed for the accounting year ended 31 December 2020.</p> <p>Similar principles also apply on commencement and cessation of business. However, different rules apply when a company changes its accounting date.</p>
Taxation of Companies [S 9(1), 30]	<p>The Federal Inland Revenue Service (FIRS) is empowered to tax companies using a deemed profit ratio on their Nigerian revenue, where it appears to the FIRS that the true amount of the company's profits cannot be reasonably ascertained.</p> <p>In practice, the tax authorities deem profits of 20% on every income, and taxes the profit at 30%, resulting in an effective tax of 6% of turnover. The FIRS applies this practice mostly on NRCs, and on rare occasions to Nigerian companies.</p>

Item	Comment / Description
Minimum tax [S 14, 16, 33 (1) & (2)]	<p>This is imposed where a company has no taxable profits, or the tax payable is less than the minimum tax computed.</p> <p><u>General rules:</u></p> <p>Minimum tax is generally computed at 0.5% of a company's annual gross turnover less franked investment income.</p> <p>Companies can enjoy a reduced minimum tax rate of 0.25%, for any tax returns filed for any 2 consecutive accounting periods between 1 January 2019 to 31 December 2021 as may be chosen by the taxpayer. This rate reduction is only granted where the relevant returns are filed before the filing due dates.</p> <p>"Gross turnover" means the gross inflow of economic benefits during the period arising in the course of the operating activities of an entity. This also includes sales of goods, supply of services, receipt of interest, rent, royalties or dividends.</p> <p><u>Insurance companies</u></p> <p>The minimum tax for Insurance Companies is imposed when the Company has tax payable which is less than the minimum tax computed at -</p> <ol style="list-style-type: none"> 0.5% of gross premium and other income for non-life insurance business 0.5% of gross income for life insurance business <p>"Gross Premium" means the total premiums written, received and receivable, excluding unearned and returned premiums.</p> <p>"Gross Income" means the total income earned by a life insurance business including investment income, fees commission and other incomes, and excluding franked investment income, premiums received, and claims paid by re-insurers.</p> <p><u>Non-resident shipping and airline companies</u></p> <p>CITA also includes a minimum tax for NRCs that carry out international shipping and airline operations in Nigeria. This minimum tax is computed at 2% of revenue from outbound freight activities and is usually paid in the form of withholding tax before repatriating the income in foreign currency</p>
Exemption from minimum tax	<p>A company is exempted from minimum tax if it meets any of the following conditions:</p> <ul style="list-style-type: none"> It is within its first four calendar years of business. It has annual gross turnover of less than N25 million in the relevant year of assessment. It carries on primary agricultural trade or business.
Filing requirements [S 52(1), 55]	<p>Filing requirements include a self-assessment return in the prescribed form and the following supporting documents.</p> <ul style="list-style-type: none"> Audited accounts Tax and capital allowance computation A statement in writing containing the amount of profit for the year from each and every source. <p>It is not compulsory for the accounts submitted by Small and Medium Companies (companies that earn annual turnovers less than NGN100m) to be audited.</p> <p>For NRCs required to submit tax returns under section 13(2) of CITA, the returns should include:</p> <ul style="list-style-type: none"> Global/home-country audited financial statements, and a financial statement of their Nigerian operation attested by a certified Nigerian Accountant Tax computation schedule Statement of Nigerian profits, including the source Self-Assessment forms <p>Self-assessment forms must be signed by an authorised officer of the company.</p> <p>NRCs that create a TPMC SEP or earn only passive income (dividends, interest, royalty and rent) from Nigeria, are not required to submit tax returns, if WHT has been deducted on the income at 10%.</p>

COMPANIES INCOMES TAX (CIT)

Item	Comment / Description
Due date for filing [S 55(2)]	<p>Within 6 months of the company's accounting year end. However, a new company must file its returns within 18 months from the date of incorporation or 6 months after the end of its first accounting period, whichever is earlier.</p> <p>In practice, tax returns may be delayed until the first working day of the following calendar year for companies with financial year-end dates between January and June. This is to align the tax returns with the relevant government fiscal year.</p>
Due date for payment of CIT [S 77(5) and Self-Assessment Regulations S 3]	<p>Every company shall make payments of tax due on or before the due date of filing in one lump sum or in instalments.</p> <p>With respect to instalments, the taxpayer is expected to write, with evidence of the first instalment and obtain the approval of the revenue authority before making such instalment payments and the final instalments must be paid on or before the due date of filing.</p> <p>Where a company pays its tax 90 days before the due date of payment, such company shall be entitled to a bonus of</p> <ul style="list-style-type: none"> • 2% if such company is a medium sized company • 1% for any other company <p>on the amount paid, which can be utilised as tax credit against the company's future tax payable.</p>
Offences and Penalties [S55,53,85]	<p>Late filing of returns – [S 55(3) (5)]</p> <p>Failure to file tax returns attracts a penalty of ₦25,000 for the first month in which the failure occurs and ₦5,000 for each subsequent month in which the failure continues. Upon conviction, the responsible officer of the company may be liable to a fine of ₦100,000 or 2 years imprisonment or both.</p> <p>Late payment or non-payment of tax - [S 85(1)]</p> <p>Penalty is 10% of the amount of tax payable and interest at the monetary policy rate (MPR) currently plus a spread to be announced by the Finance Minister. The FIRS published a public notice in July 2017 stating that the Finance Minister approved a spread of 5%. With the MPR generally around 11.5% in 2021, this translates to interest rate at about 16.5%. However, in practice, the tax authorities assume an MPR of about 14% and therefore, assess interest at 19%.</p> <p>Incorrect returns - [S 53 (2)]</p> <p>Penalty and Interest on any outstanding tax will accrue from the date the incorrect return was filed and payment made.</p>
Statute of limitations [S 66]	<p>The tax authority may issue additional assessment within six years from the relevant tax year. However, the limitation does not apply in the event of a fraud, willful default or neglect by the company.</p>
Correspondence - Notice of Assessment and Objections [S 68 & 69]	<p>Courier service, email and other electronic means are validly recognised as means of correspondence for issuance of assessment and raising valid objections.</p>

Gas Utilisation Incentives [S 39]	<p>Companies engaged in gas utilisation (downstream operations) may be granted the following incentives in respect of the gas utilisation operations of a company, subject to satisfactory performance of the business:</p> <ul style="list-style-type: none"> • Tax free period of up to 5 years, or 35% additional tax depreciation (investment allowance) in respect of gas infrastructure • Investment allowance of 15% after the tax-free period. • Tax free dividend during the tax -free period under certain conditions. • Accelerated capital allowance after the tax-free period. <p>Qualifying companies can only enjoy this incentive once. Any new company formed by way of the reorganisation or other form of restructuring from a company which has already enjoyed this incentive, would no longer qualify..</p> <p>Also, the section will not apply to companies that have claimed the incentives under the Industrial Development (Income Tax Relief) Act or the Petroleum Profit Tax Act in respect of the same qualifying capital expenditure.</p>																																													
Tax waiver on Bonds [Companies Income Tax (Exemption of Bonds and Short-Term Government Securities) Order 2011]	<p>Income earned by companies from Federal Government bonds are exempt from CIT in line with the CIT Exemption Order.</p> <p>Income from other bonds and securities which were previously exempt, are now subject to CIT from 2 January 2022.</p>																																													
Capital Allowance	<p>These are granted on tangible non-current assets used in generating taxable profits, in lieu of accounting depreciation. The amortisation of most intangible assets over their useful lives is tax deductible (with the exception of internally generated intangible assets and intangible assets with indefinite lives).</p> <p>The amount of capital allowances to be enjoyed in each tax year is limited to a maximum of two-thirds of a company's assessable profits for that year. However, companies within the upstream and midstream gas sector, agro-allied industry, and manufacturing industry are allowed to fully deduct available capital allowances each tax year.</p> <p>Qualifying assets and applicable rates are stated below:</p> <table border="1"> <thead> <tr> <th>Qualifying Expenditure</th> <th>Initial Allowance</th> <th>Annual Allowance</th> </tr> </thead> <tbody> <tr> <td>Building (Industrial & Non-Industrial)</td> <td>15%</td> <td>10%</td> </tr> <tr> <td>Mining</td> <td>95%</td> <td>Nil</td> </tr> <tr> <td>Plant:</td> <td></td> <td></td> </tr> <tr> <td>• Agriculture Production</td> <td>95%</td> <td>Nil</td> </tr> <tr> <td>• Others</td> <td>50%</td> <td>25%</td> </tr> <tr> <td>Furniture and Fittings</td> <td>25%</td> <td>20%</td> </tr> <tr> <td>Motor Vehicles:</td> <td></td> <td></td> </tr> <tr> <td>• Public transportation</td> <td>95%</td> <td>Nil</td> </tr> <tr> <td>• Others</td> <td>50%</td> <td>25%</td> </tr> <tr> <td>Plantation Equipment</td> <td>95%</td> <td>Nil</td> </tr> <tr> <td>Housing Estate</td> <td>50%</td> <td>25%</td> </tr> <tr> <td>Ranching and Plantation</td> <td>30%</td> <td>50%</td> </tr> <tr> <td>Research and Development</td> <td>95%</td> <td>Nil</td> </tr> <tr> <td>Software*</td> <td>Unspecified</td> <td>Unspecified</td> </tr> </tbody> </table>	Qualifying Expenditure	Initial Allowance	Annual Allowance	Building (Industrial & Non-Industrial)	15%	10%	Mining	95%	Nil	Plant:			• Agriculture Production	95%	Nil	• Others	50%	25%	Furniture and Fittings	25%	20%	Motor Vehicles:			• Public transportation	95%	Nil	• Others	50%	25%	Plantation Equipment	95%	Nil	Housing Estate	50%	25%	Ranching and Plantation	30%	50%	Research and Development	95%	Nil	Software*	Unspecified	Unspecified

	<p>(IA = Initial Allowance, AA = Annual Allowance)</p> <p>*Capital expenditure incurred on the development or acquisition of software and capital outlays on electronic applications are now recognised as qualifying expenditure for the claim of capital allowances.</p> <p>Capital allowance in respect of assets exclusively used to generate tax exempt profits will not be claimable, and capital allowance on assets that are partially used for generating taxable profits will be prorated. The restriction will only apply where the proportion of non taxable income exceeds 20% of the company's total income .</p> <p>For small and medium companies, capital allowances for each year, together with any unabsorbed capital allowances brought forward, will be deemed to be utilised. However, such companies can carry forward the tax residue (tax written down values) of qualifying assets to subsequent periods when it may become taxable. Pioneer Companies are exempt from these amendments during their pioneer period.</p>								
<p>Investment Allowance</p>	<p>Reconstruction Investment Allowance is granted at a rate of 10%, to companies that incur expenditure on plant and equipment. It is an uplift to the tax depreciation available in respect of plant and equipment (resulting in a 110% allowance). It is not considered in determining the tax written down value of the asset. It is calculated on cost and granted in the year of assessment in which the asset is first put into use. Plant and equipment acquired after 1 September 2023 can no longer enjoy Reconstruction Investment Allowance. However, companies with unutilised investment allowances from prior tax years may continue to enjoy the allowance until fully utilised.</p> <p>Rural investment tax relief is available to businesses on infrastructure costs incurred if located not less than 20km away from the following facilities at the rates below</p> <table border="1" data-bbox="379 940 768 1120"> <tbody> <tr> <td>No facilities at all</td> <td>100%</td> </tr> <tr> <td>No electricity</td> <td>50%</td> </tr> <tr> <td>No water</td> <td>30%</td> </tr> <tr> <td>No tarred (paved) road</td> <td>15%</td> </tr> </tbody> </table> <p>Relevant assets acquired after 1 September 2023 can no longer enjoy Rural Investment Allowance. <p>Transfer Pricing Regulations</p> <p>[TP Regulation /S 22 (CITA)]</p>	<p>The Income Tax (Transfer Pricing) Regulations, 2018 ("TP Regulations") was published in August 2018 to replace the Income Tax (Transfer Pricing) Regulations 2012. The TP Regulations are applicable to accounting periods commencing after 19 March 2018.</p> <p>The TP Regulations require companies to file TP declaration and TP disclosure forms along with the income tax returns every year. While the TP declaration form requires companies to provide information about its business, its parent company, its directors and its related parties; the TP disclosure form requires companies to report the values of related party transactions engaged in during the reporting period. After the first filing, updated TP declaration forms need to be filed where there are changes to the information provided.</p> <p>TP documentation (containing a master file and a local file) is required to demonstrate that pricing of related party transactions comply with the arm's length principle. This documentation must be in place when filing the income tax and transfer pricing returns with the FIRS. Companies with annual related party transactions under N300 million are exempted.</p> <p>The Nigeria TP Regulations are to be applied in a manner consistent with the OECD Transfer Pricing Guidelines for Multinational Enterprises and Tax Administrations, and the UN Practical Manual on Transfer Pricing for Developing Countries.</p>								
<p>Interest deductibility rules</p> <p>(Schedule 7)</p>	<p>Tax deduction for interest on foreign related-party loans is restricted to 30% of a company's Earnings Before Interest Tax Dividend and Amortisation (EBITDA). Annual interest expenses above this cap can be carried forward for a maximum of 5 years, after which they will be deemed to have lapsed.</p>
